

AUTOMOTIVE LIGHTING

INTERIOR LIGHTING ON POINT

Specially developed for use in vehicles, vehicle interiors are transformed with our innovative automotive lighting solution to create a multifaceted and modern spectacle of direct and indirect lighting effects.

| INDIVIDUALLY ADAPTABLE PLUG-IN SOLUTION FOR ACCENT AND GENERAL LIGHTING
made to measure, for easy installation in existing contours, grooves and niches

| DC POWER SUPPLY INDIVIDUALLY SELECTABLE ACCORDING TO APPLICATION
from 12 to 48 VDC

| HIGH-PERFORMANCE LUMEN PACKAGES AND HIGHEST COLOR RENDERING VALUES
for countless requirements and maximum visual comfort

| RESISTANT AGAINST EXTERNAL INFLUENCES LIKE
shocks and impacts, high temperatures, salt water as well as UV-rays

| INTELLIGENT CONTROL OPTIONS
via KNX, DALI or Casambi smartphone & tablet applications

AUTOMOTIVE LIGHTING

Interior lighting on point.

12, 24 OR 48 VDC SUPPLY VOLTAGE

LIGHT COLOR WHITE & RGB UP TO RGBW

INDIVIDUALLY CUSTOMIZABLE

MADE AND ENGINEERED IN AUSTRIA

GENERAL INFORMATION

- Individual lighting solution, adaptable to a wide range of requirements and customer wishes e.g. selectable extra-low voltage between 12, 24 and 48 VDC (supply 230 VAC)
- Use of highly efficient and energy-saving LED strips – Made and engineered in Austria
- Several years of experience as a producer and supplier in the field of automotive exterior lighting solutions
- Individually adaptable and prefabricated plug-in systems, suitable for installation in existing contours
- Maximum service life and increased protection against shock and impact due to fully encapsulated silicone LED strips
- Wide range of different illuminance levels as well as maximum color rendering index (up to Ra 90)
- Splash-proof due to protection class up to IP67, optimally suited for indoor and outdoor applications
- Realization of long lengths for accent lighting in outdoor areas
- **Professional optimization of the required lighting needs:** BLT. Automotive Lighting provides a balanced, energy-efficient and customized balance between effect lighting and required lighting
- 5 Years Guarantee

Optional accessories: Casambi Bluetooth control for easy light control via smartphone, integration into existing SmartHome lighting control systems, ready-made power supply with control (bswp.io-homecontrol).
